

DRINKIN' TEXAS

With breweries, distilleries and vineyards from El Paso to Texarkana and from Amarillo to Brownsville, Texas has a drink for every glass. For visitors to our great state, and residents who don't get out much, we have just the TEXperts to help determine which libation is the right one to wet their whistles.

Our TEXpert tasters can explain the subtle differences between whiskey, bourbon and rye. They can help guests determine whether they prefer their Texas wines in red, white or rosé. Do your guests want to know more about beer? Our TEXperts can help with that, too.

A Drinkin' Texas station can be set up at a bar or on a table. TABC certified tasting TEXperts will provide sips of each of three or four beers, wines or spirits. They will be right there to answer questions and provide information about each option. You provide the beverages, we'll provide everything else.

Our tasting TEXperts will have you Drinkin' Texas in no time!
